VIPER™ SHIELD ENHANCED PARTITION

Viper™ Shield Enhanced Partition shown in the Ford Police Sedan Interceptor

Officer displaying the transparent ballistic view port on the Viper™ Shield

The VIPER™ Shield Rapid Deployment System takes protection outside of the vehicle with the officer. This lightweight shield is capable of providing protection for officers against the uncertainties they face daily; situations like warrant service, felony stops, domestic disputes, or even traffic stops that can quickly escalate.

Viper™ Shield Enhanced Partition Features

Portable Ballistic Protection

- » Partition includes Recessed Panel, Lower Extension Panels & VIPER™ Shield
- » Heavy-duty construction easily withstands aggressive prisoner assaults
- » Shield dimensions: 16" wide x 25" height
- » One-handed carry
- » Offers additional protection for exposed vital areas of officer's body

Rapid Deployment

- » Lightweight design weighs only 8.5 lbs.
- » T-handle is mounted on B-Pillar behind driver

- » Rotary Latch meets FMVSS206 Standards
- » Flexible, Velcro® handle and armband for maximum shield control

Patented Technology

- » Patented Airbag Compatible Wings
- » Rated NIJ IIIA
